
Index to SIGNAL

Volume 54 September 1999 Through August 2000

TITLE

Sorted by topic, each listing includes an index number for cross-referencing to the listing by author on page 110, the title, month of publication and page number.

Air Force Technologies

1. Dynamic Information Flow
Strengthens Air Operations July p. 37
2. Airborne Communications Capsule
Hosts Mission Support Systems July p. 42
3. Command and Control Connect In
Air Force Electronics Center July p. 43
4. Concept Design Center Teams
Explore Future Space-Based Tools July p. 49

Analysis

5. Online Instruction Strategies
Require Close Examination Jan. p. 29

Army Information Systems

6. Information Systems Sculpt
Army's Engagement Goals April p. 33
7. Tactical Signalers Learn to
Pack Light, Travel Right April p. 37

Asia-Pacific Region

8. Crises, Opportunities Define
Pacific Command Operations Nov. p. 16
9. China's Military Potency Relies On
Arms Information Content Nov. p. 21
10. New Missile Destroyers Deploy
For Blue-Water Operations Nov. p. 29

Association Feature

11. Communications and Information Systems Loom
Essential for Alliance Operations Jan. p. 48
12. Threats and Challenges Predominate
In the Dynamic Asia-Pacific Region Feb. p. 85
13. Navy, Marine Corps Warfighters Gird
for Multifaceted Missions May p. 69
14. New Millennium Missions Demand
Coordinated International Efforts Aug. p. 62

Aviation

15. Cooperative Analysis Bolsters
Aircraft Incident Investigations Aug. p. 59

Battlefield Information Systems

16. Networking Bonanza Generates
Accurate Battlespace Awareness May p. 17
17. Digitized Battlefield Elements
Tested for Joint Environment May p. 23

18. U.S. Forces in Asia Map Out
Consolidated Wide Area Network May p. 29
19. Remotely Operated Communications
To Link British Forces in Balkans May p. 33

Business Profile

20. Re-establishing Business Objectives
Aims Company Toward Prosperity Oct. p. 43
21. Wireless Tracking Technology
Locates One Among Thousands Mar. p. 63
22. Cable Company Maximizes Return
on Network Investment April p. 58

Business Trends

23. Photons and Electrons Nourish
Blossoming Economic Prosperity June p. 35
24. Chip Manufacturing Giant Moves
Into Web Support Services June p. 43
25. Collusion Detection Technology
Hunts Down Insider Crime June p. 65
26. Digital Signal Processors Push Design,
Performance Envelope June p. 69

Canada

27. Canada Harmonizes Score
To Enter Digital Economy Mar. p. 49
28. Customer Service Must
Remain High Priority Mar. p. 52
29. User Interface Opens Options In
Air Traffic Control, Defense Mar. p. 55

CECOM

30. Military's Multifaceted
Organization Executes Diverse
Technology Tasks Aug. p. 29
31. Advanced Systems Elevate
Level Of Cooperation Between Troops ... Aug. p. 33
32. Communications System Updates
Military Mission Status On-the-Fly Aug. p. 37

Commentary

33. Back to the Future:
TechNet International 2000 Sept. p. 14
34. Intelligence Is at a Crucial Crossroad Oct. p. 14
35. Asia-Pacific Nations Face
Security Challenges Nov. p. 14
36. Let Technology Aid, Not Drive,
Military Operations Dec. p. 14

37. AFCEA Looks to Its Core Competencies for the Future Jan. p. 14
38. Computing Opportunities Challenge Visionaries Feb. p. 14
39. Information Operations Change the Map of Conflict Mar. p. 14
40. Telecommunications Mixes Signals to Industry and Military April p. 14
41. On the Battlefield, the Network Is the Platform May p. 14
42. Building the Future on a Solid Foundation June p. 14
43. Government and Industry Research Must Be Synergistic, Not Just Complementary July p. 14
44. TechNet International: Looking Back, Looking Ahead Aug. p. 14

Communications

45. Telecommunications Firm Applies Expertise to Government Practice Sept. p. 57
46. Deployable Communications Network Outfits Military, Disaster Relief Missions Worldwide Dec. p. 71
47. Military Forges Components of Future Mobile Communications Platform July p. 53

Computing

48. Data-Sifting Intelligent Agents Nourish Virtual Environments Oct. p. 65
49. Computer Productivity Defies Definition and Confirmation Feb. p. 17
50. Technology-Based Capitalism Blurs the Lines Between Competition and Conflict Feb. p. 19
51. Development Program Etches Future for Mobile Robots Feb. p. 23
52. Navy Places Efficiency in Palm of the Sailor's Hand Feb. p. 29
53. Providers Uncover Different Approach to Software Access May p. 60
54. Web of Confusion May Untangle With Standards, Cooperative Efforts July p. 59
55. Data Mining Software Accelerates, Streamlines Research and Analysis July p. 63

Digital Medicine

56. Personal Physiological Monitors Find Warfighter-Effectiveness Edge Aug. p. 47
57. Scientists Use Brainwaves to Navigate, Interact With Cybernetic Environments .. Aug. p. 51
58. Post-Terrorist-Attack Triage Teams Rehearse on Virtual-World Platform Aug. p. 55

Distance Learning

59. Government Forges 21st Century Training and Education Network Jan. p. 17
60. Distance Learning Providers Do Their Own Homework Jan. p. 23
61. Virtual Testing Capabilities Enable Professional Certification Process Jan. p. 26

E-Commerce

62. Internet Tax Analysts Encounter Legislative, Regulatory Minefield May p. 45
63. Collaborative Input Capability Shortens Government Paper Trail May p. 49
64. Electronic Commerce Commands Canny Insight Into Hacker Moves May p. 53

Electronics

65. High-Speed Wideband Testing Technology Goes Mainstream Oct. p. 83

Europe

66. Central Europe Forces Embrace New Status, Prepare New Roles Sept. p. 17
67. Commercial Technologies Take to The Air for Battlefield Networks Sept. p. 23
68. British Acquisition Experts Adopt Radical Procurement Approaches Sept. p. 27
69. Information Technology Systems Benefit From Procurement Reforms Sept. p. 31
70. Germany Shifts Procurement Tasks to Single Organization Sept. p. 35
71. Global Aerospace Firm Offers Solutions to German Defense Sept. p. 39

Fleet Operations

72. Fleet Communications Connect With Commercial Technologies, Systems Feb. p. 33
73. Environmental Forecasters Maneuver Commanders Through Rough Waters Feb. p. 39
74. Tactical Radar Parries Small Craft Littoral Zone Threat Feb. p. 43

Government

75. Evolving Procurement Products Transform Business Operations Sept. p. 75
76. Government Contingency Plans Readied As Year 2000 Deadline Nears ... Dec. p. 75

Information Operations

77. Deft Federal Burglar Alarms Receive Funding Jump-Start Mar. p. 17
78. Federal Outreach Programs Stimulate National Security Mar. p. 20
79. Information Operations Absorb Traditional Service Activities Mar. p. 23
80. Network Defense Hinges on Standards, Legal Reform Mar. p. 26
81. Military Leaders Formulate Virtual Organization Plans Mar. p. 27
82. Megabytes Join Muddy Boots In U.S. Army Force Operations Mar. p. 31

Intelligence

83. Balkans Serve as Proving Ground For Operational Imagery Support Oct. p. 17
84. Security Agency Transitions From Backer to Participant Oct. p. 23
85. Clever Tactics Deliver Actionable Data To Companies Eager to Gain Advantage .. Oct. p. 26

86. What Role Should Government Play in Business Intelligence? Oct. p. 30
87. Defense Department Partners With Industry for Signals Intelligence Dec. p. 79
88. Intelligence Architecture Augments Area Expertise With Data Access Jan. p. 34
89. Fusion Center Concept Takes Root As Congressional Interest Waxes April p. 47
90. Echoes of Chechnya Warfare Resound in Moscow, Quantico May p. 39

International

91. Trans-Atlantic Leadership Center Seeks to Meld Democratic Values Sept. p. 43
92. Politics, Finances Dominate Bulgaria's Military Reform Oct. p. 33
93. Allied Force Technology Demonstrations Illustrate Power of Coalition Network Oct. p. 37
94. Exercise Engages Multitude of Emerging Capabilities Oct. p. 40
95. Military Radio Versatility Now Includes Civilian Functions Nov. p. 55
96. International Defense Contractors Formulate Next-Century Standards Nov. p. 58
97. Kosovo Maps the Future of Information Technologies Dec. p. 49
98. United Kingdom Casts Battlefield Communications Network Dec. p. 55
99. Telecommunications Companies Poised to Enter Chinese Market Feb. p. 46
100. Software Traffic Cop Eases Network Packet Congestion Feb. p. 65
101. Tactical Radar System Adds Teeth To Perimeter Security Missions Mar. p. 59
102. Rapid Commercial Response Links Australian East Timor Forces April p. 41
103. U.S. Forces Provide Deployable Communications to East Timor April p. 44
104. Bulgaria Seeks Industry Teaming for New Military Information Systems May p. 57
105. Allied Technology Requirements Call for Streamlining Acquisition June p. 78

Materials

106. Futuristic Materials Inspired By Biological Counterparts Mar. p. 37
107. Metamorphic Substances Shape Actuator, Sensor System Design Mar. p. 42

Military

108. Information Operations Sweep Across Milieu of Peace and War Sept. p. 47
109. Adapting Commercial Technologies For Defense Moves Into High Gear Sept. p. 51
110. Flexible Software Drives Marines' Experimental Battle Laboratory Oct. p. 78
111. Synthesizing Capabilities Thwarts Growing Ballistic Missile Threat Jan. p. 43
112. Fusion Center Synchronizes Network Monitoring Tasks Mar. p. 46

113. Agent-Based Dissemination Hastens Information Stream to Warfighters June p. 17
114. Laboratory Tests Tactical Impact Using Information Dissemination June p. 23
115. High-Speed Digital Device Prods Battlefield Bandwidth Efficiency June p. 25
116. Army Transformation Changes Force Targets for Digitization July p. 31
117. Planners Focus on Sensors for Brigade Effectiveness July p. 35
118. Guard Tackles Challenges Volatile Situations Create Aug. p. 43

Research & Development

119. Nanotechnology Paves Way for Coming Scientific Revolution July p. 17
120. Plastic Opto-Chips Offer Promise of Greater Communications Bandwidth July p. 21
121. Interactive Data Display Devices Help Commanders Get the Picture July p. 27
122. Adaptable Communications Tool Untangles Tactical Bird's Nest Nov. p. 51

Science & Technology

123. Low-Power Electronics Advance to Prime Time Oct. p. 71
124. Alternative Chip Production Technology Opens Door to Far-Reaching Applications Oct. p. 75
125. Low-Power Electronics Redraw Satellite Design June p. 91

Security

126. Integrated Circuit Chip Provides Secure, Rapid Data Encryption Oct. p. 47
127. Prototype Code Connects Multitude of Security Devices Nov. p. 63
128. Trusted Gate Closes on Thin-Client Computer Network Security Holes Dec. p. 67
129. Cyberspace Situational Awareness Demands Mimic Traditional Command Requirements Feb. p. 83
130. Security Product Trust Demands Laboratory Test and Evaluation April p. 51
131. Layered Approach Security Planning Offers Best Defense Against Attacks April p. 55
132. Secure Remote Access System Unlocks Off-Site Availability May p. 63
133. Secure Telephony Enters Handheld Cellular Realm June p. 73
134. Computer Security Experts Warn of Growing System Vulnerabilities Aug. p. 17
135. Intrusion Detection Technology Closes in on Hackers Aug. p. 21
136. Internet-Based Attack Risk Distracts Organizations From Internal Trouble Aug. p. 25

Simulation

137. Testing and Evaluation Nurture Valuable Simulation Expertise Sept. p. 62
138. Future Joint Simulation System Integrates Training Processes June p. 84

Space Technologies

- 139. Down-To-Earth Solutions Offered
For British Military Satellites Dec. p. 63
- 140. Autonomous, Software-Rich
Spacecraft Solve Problems
Posed by Laws of Physics Feb. p. 69
- 141. Miniature Satellite Constellations
Flight-Test Prototype Technologies Feb. p. 75
- 142. Infant Voice Over Internet Protocol
Takes Grown-up Steps Into Space Feb. p. 79

Tactical Operations

- 143. Defense Planners Visualize
Future Fighting Forces Nov. p. 33
- 144. Revising Information on the Fly
Accelerates Signal Corps Functions Nov. p. 37
- 145. Air Force Aims for Rapid Deployment
And Continuous Operational Awareness .. Nov. p. 43
- 146. Guard and Active Forces' Synergy
Flourishes in Weekend Exercise Nov. p. 47
- 147. Global Positioning Guidance Boosts
Projectile Proficiency Dec. p. 59

TechNet International 2000

- 148. Comprehensive Forum Explores
Current, Future Challenges June p. 97

Technology Forecast

- 149. Today's Exploration Launches 2001:
A Battlespace Odyssey Dec. p. 17
- 150. Social Needs Mold Government
Policy, Spur Future Scientific Research .. Dec. p. 22
- 151. Technology and Human Thought
Drive Future Communications Dec. p. 29

Telecommunications

- 152. Fierce Competition and Demand
Engender Grow or Die Mentality April p. 17
- 153. Shrinking Image File Sizes
Proffers Virtual Bandwidth April p. 23
- 154. Ingenuity Helps Assuage
Network Access Cravings April p. 27

Viewpoint

- 155. Technology Did Not Create and
Cannot Resolve Privacy Dilemma Jan. p. 39
- 156. Intelligence Is the Long Pole in
The Information Operations Tent Mar. p. 35
- 157. Information Technology—Servant,
Not Master, of Operational Art June p. 31

Wireless Technologies

- 158. Turbo Codes Offer Broadcasting
At Near Channel Capacity Sept. p. 66
- 159. Technology Provides Dynamic
Bandwidth In Wireless
Broadband Access Systems Sept. p. 69
- 160. Digital Libraries Extend Longevity of
Programmable Communication Tools ... Sept. p. 73

AUTHOR

The numbers in the listing below refer to the index numbers from the title listing starting on page 107.

- Ackerman, Robert K. 3, 7, 8, 13, 17, 45, 49, 50, 66, 67, 68, 69, 70, 71, 72, 79, 80, 82, 83, 84, 88, 90, 91, 92, 95, 97, 100, 102, 103, 104, 106, 109, 116, 117, 120, 133, 134, 137, 139.
- Bartolome, Capt. Allan D., USAF 4.
- Bass, Tim 129.
- Berry, Sharon 53, 54, 142, 151.
- Bigelow, Lt. Cmdr. Tina, USN 111.
- Black, Roger 132.
- Bussert, James C. 10.
- Campen, Col. Alan D., USAF (Ret.) 155, 156, 157.
- Daskevich, Capt. Ronald J., USAF 15.
- Fallin, Dr. Herbert K., Jr. 105.
- Grace, Jim 147.
- Gustafson, Scott 4.
- Hankins, Michelle L. 46, 52, 60, 61, 76, 96, 99, 126, 128, 131, 150, 159.
- Ing, Melvin 12.
- Kenyon, Henry S. 6, 19, 25, 26, 29, 47, 51, 55, 57, 59, 63, 65, 74, 98, 101, 107, 110, 119, 123, 125, 127, 136, 141, 145, 146, 158, 160.
- Lawlor, Maryann 1, 2, 5, 14, 23, 24, 27, 28, 30, 31, 48, 56, 58, 62, 73, 75, 81, 85, 86, 93, 94, 112, 121, 140, 143, 144, 148, 149, 152, 153.
- Marburger, Joan C. 87.
- Mowery, Beverly P. 13.
- O'Donnell, Lt. Col. James G., USA (Ret.) 18.
- Powell, Mark 122.
- Presley, Steve 4.
- Recke, Col. Hans-Joachim, GEA (Ret.) 11.
- Reed, Fred V. 124.
- Robinson, Clarence A., Jr. 9, 16, 64, 77, 78, 89, 108, 113, 114, 115, 130, 154.
- Robinson, Michael A. 20, 21, 22.
- Schmidt, Walter H.P. 105.
- Sheehy, Christian B. 32, 135.
- Stiefvater, James 118.
- Wagner, Col. Keith J., USAF 138.
- Wood, Lt. Gen. C. Norman, USAF (Ret.) 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44.
